

VISHNU MEDHAS

Java Full-Stack Developer (Fresher)

Bangalore, Karnataka, India | +91 6300823626 | vishnumedhas11@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science Engineering graduate (2026) with hands-on experience building full-stack Java web applications using Spring Boot, Spring MVC, Spring Data JPA, REST APIs, Hibernate, and MySQL. Skilled in developing CRUD-based enterprise modules, secure REST APIs with JWT authentication, and responsive front-end interfaces with HTML5, CSS3, JavaScript, and React.js. Strong foundation in OOP, data structures, and Git-based collaborative development. Seeking an entry-level Software Developer / Java Developer role to deliver reliable, scalable software solutions.

TECHNICAL SKILLS

Languages: Core Java (OOP, Collections, Exception Handling, Multithreading), Java 8 (Streams, Lambda Expressions, Optional)

Web Technologies: HTML5, CSS3, JavaScript, React.js

Backend / Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, REST APIs, JDBC, Servlets, JSP, Hibernate ORM

Database: MySQL, SQL

Tools & Version Control: Git, GitHub, Eclipse, Spring Tool Suite (STS), Visual Studio Code, Apache NetBeans

PROFESSIONAL EXPERIENCE

Software Development Intern

Jan 2026 – Present

Dhee Coding Lab

Bangalore, Karnataka, India

- Developed and maintained Java-based web applications using Servlets and JDBC to process client requests and database operations, improving backend processing reliability.
- Built responsive, cross-device UI components using HTML5, CSS3, and JavaScript, reducing UI defects and improving usability across desktop and mobile.
- Implemented full CRUD (Create, Read, Update, Delete) functionality for core application modules, streamlining data management workflows for end users.
- Managed session handling for user interactions, ensuring secure and consistent state management across web requests.
- Collaborated with a development team using Git and GitHub for version control, code reviews, and release management.

PROJECTS

Employee Management System | Java, Servlets, JDBC, MySQL

- Built a dynamic web application using Java Servlets and JDBC to perform CRUD operations on employee records, supporting efficient data entry and retrieval.
- Designed and integrated a MySQL relational database schema for structured, efficient storage and retrieval of employee data.
- Applied Object-Oriented Programming principles to build a modular, maintainable codebase for scalable feature additions.

E-Commerce Web Application | Java, Spring Boot, Spring Data JPA, Spring Security, MySQL

- Developed a full-stack e-commerce application using Java, Spring Boot, Spring Data JPA, and MySQL, enabling product catalog management, shopping cart, and order processing workflows.
- Built secure, decoupled RESTful APIs using Spring MVC to handle product search, cart updates, and checkout flows with consistent JSON request/response handling.
- Implemented role-based authentication and secure session management using Spring Security and JWT to protect customer data and persist user state across sessions.

EDUCATION

Bachelor of Engineering, Computer Science and Engineering — Gates Institute of Technology, Gooty, Anantapur (CGPA: 8.6/10)

Jun 2022 – May 2026

Class 12, State Board — Narayana Junior College, Hindupur, Anantapur (Score: 95.5%)

Class 10, State Board — LRG Vidyalayam English Medium High School (Score: 91%)

May 2020 – Apr 2022

CERTIFICATIONS & ACHIEVEMENTS

- Pursuing Full Stack Development Course, Dhee Coding Lab; demonstrated strong teamwork and leadership skills while collaborating on academic and technical projects
